

Washington County Waterways meeting

Weiser Rural Firehouse

August 6, 2019 6:00 pm

Present: Don Anderson, Brad Johnson, Tony Buthman, Brenda Aldrich

Old business: Mann Creek Reservoir - Bureau of Reclamation needs report from a certified engineer to proceed with the new parking area. We need to have a meeting with Bureau of Reclamation, Forest Service and BLM and come up with a new recreation plan.

Waiting for Midvale ramp. Need to put up non-motorized signage and make it primitive access.

New business: Tony was contacted about us helping to put an outhouse at Mortimers Island. It's City property, in a flood plain, and would have to be approved by SW District Health. Might consider paying half.

There were some missing pins at Mann Creek Reservoir dock. Brad got some to replace, but when he went to put them in, they had been put back.

Next meeting October 1, 2019

Meeting adjourned 7:00 pm
